TABLE OF CONTENTS:

- The Big Picture
- No-Code Integration Platform
- Connect Vision to the Outside World
- Why Choose BlackBox

THE BIG PICTURE:

Integrating Deltek Vision with world-class business critical applications is an essential element for growing your business. All of your critical business data lives in Deltek Vision; project information, financial data and contact records. The challenge many firms face is integrating critical business data that lives in disparate outside systems.

This whitepaper will review how to accomplish a full integration with Deltek Vision without embarking on lengthy, complex and costly programming requiring specialized skill-sets and product knowledge.

NO-CODE INTEGRATION PLATFORM

The BlackBox Connector is a simple, easy-to-deploy, solution specifically designed to integrate Deltek Vision with world-leading API technology. The BlackBox Connector uses a visual based configuration -- versus traditional archaic coding methods -- empowering Deltek Vision users to complete application integration projects in hours. This end-user-focused approach simplifies the technical back-end of Deltek Vision, eliminating the need for specialized skill-sets and costly development hours.

CONNECT VISION TO THE OUTSIDE WORLD:

Your key decision makers rely on quality, up-to-date, business intelligence such as customer satisfaction, sales pipeline, billing information, and website activity. The BlackBox Connector integration wizard provides full functionality as well as flexible deployment options to completely map your Vision system to the critical business solutions that power your business.

WHY CHOOSE THE BLACKBOX CONNECTOR?

Rapidly respond to your organization's business needs! The BlackBox Connector has been specifically engineered for Deltek Vision and empowers IT departments to complete integration projects within hours utilizing our no-code integration wizard.

Go-to-Market Within Hours:

- Native connectivity to industry leading software
- Graphic interface mapping - avoid costly coding solutions
- On-demand library of pre-built integration suites

Rapid Development:

- Stay up to date with the newest version of Deltek Vision
- Unmatched flexibility - deploy on-premise or within the cloud
