

The Deltek Vision to Informer Connector

Data Visualization for Deltek Vision Users

Modernize Your Business Intelligence & Data Analysis

Available through Blackbox Connector, the ready to deploy integration of Informer 5 and Deltek Vision allows you to visualize your data to make informed decisions. By connecting your Deltek Vision database to Informer 5, you will simplify the process of accessing, validating, blending, and analyzing your data. Even more, you will be able to generate dashboards that consolidate performance metrics and utilize visualization components such as data grids, gauges, sliders, maps and more!

Point & Click Setup

The Deltek Vision to Informer 5 Connector utilizes the Blackbox Connector Wizard for Deltek Vision. The Blackbox Connector Wizard is a simple point and click, no-code integration solution that brings data together. Connect and access industry leading software directly in your Deltek Vision system. The solution dramatically reduces integration time and is securely hosted. With an annual subscription, you never have to worry about upgrades, software patches or hotfixes again!

Feature Rich Application

- Easily create ad hoc reports in minutes
- Automatically generate reports with the scheduler tool
- Access Informer 5 on any device with an Internet connection
- Create a dashboard to visualize, drill down and filter data using:
 - Bar charts
 - Pie Charts
 - Maps

Benefits: Smarter Business Decisions

- Access real-time data relevant to your department to answer key business questions
- Utilize intuitive user interface for true self-service data analysis and dashboard creation
- Use powerful data discovery capabilities to blend and explore data
- Employ simple user interface that allows for rapid user adoption
- See the big picture by monitoring KPIs with real-time reports and visualizations
